### TDS OF IOTA FINE SIL360 Silicon dioxide

IOTA FINE Silicon dioxide is a kind of superfine precipitated silicon dioxide (known as silica) made by special processing technology. It has excellent reinforcement and dispersion, many years of production practice shows that it can replace fully or partly of expensive fumed silica which has greatly reduce customers' production cost.

#### Main specifications and technical data

ITEM	IOTA FINE SIL360
SiO <sub>2</sub> (dried)	≥90
Moisture %	4-8
Sulphate %	≤1.5
PH Value	6.5-7.5
Iron Content mg/kg	≤500
BET m <sup>2</sup> /g	180-200
Partical Size	8μm
Packing	10kg

#### Silica for high transparent and reinforcing silicone rubber

IOTA FINE-SIL360 has more reinforcing effect than ordinary precipitated silica in rubber industry, especially in the silicone rubber industry, it can provide not only good tensile strength and wear resistance but also provide good color, good transparency, good appearance, not whitening after stretching and no deformation.
